About the course

COURSE HIGHLIGHTS

- Pivotal diagnostic, predictive and prognostic information on many forms of neoplastic and non-neoplastic diseases of the lung, pleura, thymus, and heart.
- Keynote presentation, workshops with an opportunity to present your own cases, and multidisciplinary discussions.

INTENDED AUDIENCE

This course is designed for pathologists, pulmonologists, residents, fellows, and other clinicians with an interest in pulmonary pathology.

LEARNING OBJECTIVES

Upon conclusion of this program, participants should be able to:

- Review the diagnostic criteria for tumors of the lung.
- Identify current guidelines for appropriate test utilization.
- Review the diagnostic criteria for interstitial lung diseases.
- Recognize the importance of a multidisciplinary approach to the diagnosis of thoracic diseases.

COURSE DIRECTORS

Andras Khoor, M.D., Ph.D. Andras Matolcsy, M.D., Ph.D., DSc.
