 The Royal College of Pathologists
Pathology: the science behind the cure

Hear the latest developments in endocrine pathology and oncology from nationally and internationally recognised experts in the field. Join us for a two-day update on endocrine pathology. Accredited by RCPATH for 10 CPD points, covering topics including

- **Updated WHO Classification of Endocrine & Neuroendocrine Tumours of thyroid, parathyroid, adrenal cortex & pheochromocytoma/paraganglioma**
- **Updates to RCPATH datasets for carcinoma of thyroid, parathyroid, adrenal cortex & paraganglioma**
- **MDT's & national guidelines**
- **Surgical approaches to thyroid cancer & pathology**
- **Reporting thyroid cytology using the UK 'Thy' system & discussion of the Bethesda system**
- **Risk stratification in thyroid cancer**
- **Pitfalls in thyroid diagnosis & medicolegal issues**
- **The thyroid patient. What the oncologist needs from pathology**
- **Update on new therapies & clinical trials for thyroid cancer**
- **Artificial intelligence & digital pathology in endocrine pathology**
- **Multidisciplinary working**
- **Case based discussions**
